BOOK SYNOPSIS

No Credit? Bad Credit? Average Credit? Just Want To Learn About Finance? Well, congratulations because you have found the right book. Not even the table of contents can show all the lessons contained within this book meant to help consumers fight all types of financial problems just as Danny Singh fights for his mother including avoiding a foreclosure, reclaiming a repossessed car, fixing credit, avoiding deceptive loans as well as checking accounts filled with fees, and getting denied credit applications approved. In response to the student loans crisis looming in America and as a community college student himself, Danny advocates going to a community or state college and doing the maximum number of classes is the best financial decision that can be made versus getting into \$100,000 of debt. Without needing bogus and expensive credit repair agencies, Danny will emphasize the most effective debt repayment plans and methods to save money on everyday purchases allowing for consumers to be debt free in months instead of years. Besides student loan debt, Danny expresses credit unions are the solution for consumers to effectively pay off any type of debt such as credit cards, auto loans, and mortgages. Being free of debt will cause their insurance premiums to decrease and increase their chances of better employment. In addition, consumers will be able to enjoy lives free of bankruptcy. Saving for retirement and other financial goals will be a breeze. Despite the financial conditions of a consumer or the economy, perfect credit is never impossible and Danny proves this in Finance 101: The Whiz Kid's Perfect Credit Guide! If the knowledge in this book does not boost your credit scores and bank account balances then feel free to return or sell it. The purchase of this book is the only investment that is risk free but makes the most earnings.
