BOOK SYNOPSIS

This is a business dictionary of 29,019 defined technology terms -- covering the latest in telecommunications, computing, the Internet, The Internet of Things, networking and social media. It is a complete dictionary/encyclopedia of today's information technology. It is used by everyone from salesmen to lawyers, from corporate trainers to college educators, from corporate users to engineers. It is set as a required textbook in colleges teaching telecommunications and information technology. The book is written for businesspeople in non-technical language. Anyone can read and understand it.
