BOOK SYNOPSIS

The Film Experience is a comprehensive introduction to film that recognizes students as movie fans while surpassing all other texts in helping them understand the art form's full scope. Noted scholars and teachers Tim Corrigan and Patricia White capture the complete film experience, situating their strong coverage of the medium's formal elements within the larger cultural contexts that inform the ways we all watch film—from economics and exhibition to marketing and the star system. A host of learning tools gives students the support they need to make the transition from movie fan to critical viewer. Now with a sharper focus that highlights the essential formal and cultural concepts of cinema, and a powerful new suite of video and media, The Film Experience is the consummate introductory film text.
