## **BOOK SYNOPSIS**

This edition of U.S. Chart No. 1 has a new name and a new look. Its title is now Symbols, Abbreviations and Terms used on Paper and Electronic Navigational Charts. For the first time, U.S. Chart No. 1 presents both of the major symbology sets used for marine navigation. As in previous editions, the symbols used on paper nautical charts produced by National Oceanic and Atmospheric (NOAA) and the National Geospatial Intelligence Agency (NGA) and digital raster representations of those charts, such as NOAA Raster Nautical Chart (NOAA RNCs), are presented in lettered sections organized in categories, such as Landmarks, Depths, and Lights. New in this edition is the inclusion of the corresponding symbols used to portray Electronic Navigational Chart (ENC) data on Electronic Chart Display and Information Systems (ECDIS) as specified by the International Hydrographic Organization (IHO).
